

Admin Management Guide

Welcome to the Homestay Booking Admin Dashboard. This guide will help you manage your properties, bookings, and customer interactions effectively.

Dashboard Overview

- **Statistics:** View real-time data on total rooms, available units, pending bookings, and monthly revenue.
- **Calendar:** Monitor room occupancy schedules in a visual calendar format.

Room & Homestay Management

1. Adding a New Property

- Navigate to "**Quản lý phòng**".
- Click "**Thêm mới**".
- Choose **Rent Type**:
 - **Whole House**: For independent villas/homes.
 - **Room Based (Homestay)**: For establishments that contain multiple sub-rooms.
 - **Private Room**: Individual rooms that can belong to a Homestay.
- Upload high-quality photos (the first one becomes the cover).
- List amenities (WiFi, AC, Pool, etc.).

2. Managing Room Status

- Use the "**Trạng thái**" toggle to mark rooms as **Available**, **Booked**, or **Maintenance**.
- Maintenance rooms will be hidden from the customer search.

Booking Operations

- **Pending Bookings:** New customer requests appear here. Review details and click "**Confirm**" to accept.
- **Check-in/Check-out:** Update guest status when they arrive or depart to free up rooms automatically.
- **Refunds:** Handle cancellations and process partial refunds according to policy.

Vouchers & Loyalty

- **Create Vouchers:** Set discount percentages or fixed amounts.
- **Expiration:** Set valid dates to keep promotions fresh.
- **Usage Tracking:** Monitor how many times each code has been applied.

Review Moderation

- Customers can leave reviews after checking out.
- Admins can **Hide** inappropriate comments or delete spam from the Management panel.
